The Black Jews of Africa - Edith Bruder 2008-06-05

"This book presents, one by one, the different groups of Black Jews in Western central, eastern, and southern Africa and the ways in which they have used and imagined their oral history and traditional customs to construct a distinct Jewish identity. It explores the ways in which Africans have interacted with the ancient mythological sub-strata of both western and African ideas of Judaism."--Résumé de l'éditeur.

Non-Western Educational Traditions - Timothy G. Reagan 2004-09-22

This text provides a brief yet comprehensive overview of a number of non-Western approaches to educational thought and practice. Its premise is that understanding the ways that other people educate their children--as well as what counts for them as "education"--may help us think more clearly about some of our own assumptions and values, and to become more open to alternative viewpoints about important educational matters. The value of this informative, mind-opening text for preservice and in-service teacher education courses is enhanced by "Questions for Discussion and Reflection" and "Recommended Further Readings" included in each chapter. New in the Third Edition: *Chapter 2, "Conceptualizing Culture:" 'I, We, and The Other,' is new to this edition. It is a response to feedback about the problems inherent in our general discourse about "culture," and in addition provides an example of a culture that is near to us but nevertheless alien-the culture of the Deaf-World. *Chapter 9-which deals with Islam and traditional Muslim education-has been substantially revised. *The subtitle of the Third Edition has been changed to Indigenous Approaches to Educational Thought and Practice, reflecting not so much a change in the emphases found in the book, but rather, a recognition of the growing scholarly interest in indigenous peoples, their languages, cultures, and histories. *Various points throughout the text have been expanded and clarified, and chapters have been updated as needed.

[Simplified History of Central Africa](#) - Augustine Muhirwa 2003

Violent Becomings - Bjørn Enge Bertelsen 2016-08

Violent Becomings conceptualizes the Mozambican state not as the bureaucratically ordered polity of the nation-state, but as a continuously emergent and violently challenged mode of ordering. In doing so, this book addresses the question of why colonial and postcolonial state formation has involved violent

articulations with so-called 'traditional' forms of sociality. The scope and dynamic nature of such violent becomings is explored through an array of contexts that include colonial regimes of forced labor and pacification, liberation war struggles and civil war, the social engineering of the post-independence state, and the popular appropriation of sovereign violence in riots and lynchings.

The Unknown of the Known in Africa - James Qeque 2018-03-01

The Unknown of the Known in Africa is the story of George Eden Bess from Germany who does research as a historian. George unveils unknown King Shaka and his plan to make Southern Africa to be in his palm of hand. George's purpose becomes a plan to bring back Africans united, as there is no African foreigner in an African country. Africa belongs to all Africans and all Africans belong to all African countries. James' novel also shows that Africans should be against Xenophobia. The Unknown of the Known in Africa brings the genuine perspective and description of the Mfecane Wars also known as Difaqane which simply means the disruption during the period of late late 17th and early 18th century--the time of chiefdoms in Southern Africa. Africans might come from different tribes, but still Africans. We cannot change the past, but we can fix the present, and we can change the future. May God bless Africa.

The Rise and Fall of Swahili States - Chapurukha Makokha Kusimba 1999

The Swahili civilization was a fascinating and complex system_a group of advanced cultures with large economic networks, international maritime trade, and urban sophistication. This book documents the growth of Swahili civilization on the eastern coast of Africa, from 100 B.C. to the time of European colonialism in the sixteenth century. Using archaeological, anthropological, and historical information, Chapurukha M. Kusimba describes the origins of this unique and powerful culture, including its Islamic components, architecture, language, and trading systems. Incorporating the results of his own surveys and

excavations, Kusimba provides us with a remarkable African-derived study of the rise and collapse of societies on the Swahili Coast.

The Zimbabwe Culture - Innocent Pikirayi 2002-07-15

Offering a unique and original perspective on the rise and fall of indigenous states of southern Zambezia, The Zimbabwe Culture analyzes the long contentious history of the remains of the remarkable cyclopean masonry, ranging from mighty capitals of traditional kings to humble farmsteads. Forming a cornerstone of the geographical lore of Africa in the seventeenth and eighteenth centuries, debate on the origins, development, and collapse of the Zimbabwe culture has never ceased, and with increasing archaeological research over the twentieth century, has become more complex. Thoroughly examining the growth and decline of pre-colonial states on the entire Zimbabwean Plateau and southern Zambezia, Dr. Pikirayi has contributed tremendously towards the archaeological understanding of this extraordinary culture. The Zimbabwe Culture is essential reading for all students and avocationalists of African archaeology, history, and culture.

History of Africa - Kevin Shillington 2018-08-28

This fourth edition of this best-selling core history textbook offers a richly illustrated, single volume, narrative introduction to African history, from a hugely respected authority in the field. The market-leading range of illustrated material from prior editions is now further improved, featuring not only additional and redrawn maps and a refreshed selection of photographs, but the addition of full colour to make these even more instructive, evocative and attractive. Already hugely popular on introductory African History courses, the book has been widely praised for its engaging and readable style, and is unrivalled in scope, both geographically and chronologically – while many competitors limit themselves to certain regions or eras, Shillington chronicles the entire continent, from prehistory right up to the present day. For this new edition, both content and layout have been thoroughly refreshed and restructured to make this wealth of material easily navigable, and even more appealing to students unfamiliar with the subject. New to this Edition: - Now in full colour with fresh new design - Part structure and part intros added to help navigation - New and improved online resources include a new testbank, interactive timelines, lecturer slides, debates In African history, essay questions and further readings - Revised and updated in light of recent research *Area Handbook for Mozambique* - 1977

African Heritage and the New Africa - Phares Mukasa Mutibwa 1977

A Revised History for Advanced Level and Colleges - Nassoro Habib Mbwana Msonde 2017-02-17

This book is much directed to accomplish the readers demand, in particular the students, for advanced level (i.e. high schools and colleges) on African history from the past to the present. It covers the period from the tenth century to the present. It includes the development of precolonial African societies; Africans during the European mercantile time, focusing on similarities and factors for disparities on advancement; and lives of black people in the New World since they arrived as slaves and their contribution on American

civilization and development. European colonialism in the second half of the nineteenth century is another important historical era that shaped Africa. As Europe and America advanced into imperialism and neocolonialism, the developing countries in the southern hemisphere still stood in dilemma. A Revised History for Advanced Level & Colleges: Part One justifies and revises important areas, which had been less mentioned or left out by other authors in writing history texts for high schools and colleges. It is made up with eight chapters. The first is Precolonial Africa, then Africa and Europe by AD 1500 revises the level of development between Africa and Europe. Next is People of African Origin in the New World and the Diaspora. Chapter 4, From Colonialism to the First World War, revises the colonial state; its theories of colonial bureaucracy; character, functions, and implication on Africans; agricultural systems; and the World War I while chapter 5 represents the colonial economy and social services after World War II. Chapter 6, The Influence of External Forces, Rise of Nationalism, and the Struggle for Independence, focuses on external factors for decolonization. Chapter 7 is Political and Economic Development in Africa since Independence. Finally, chapter 8 is Sample Questions for Final Examinations and Trials at Schools and Colleges.

Before the Rise of the Modern Copperbelt - Mwelwa C. Musambachime 2017-11-27

In Zambia, the history of industrial and commercial mining is over 115 years. The earlier period, from 1900 to 1920, is least known. It is ignored, passed over, or referred to in passing by academics and non-academics. The earlier period forms the building blocks on which the later more successful mining enterprise in the mid-1920s was anchored. This study looks at this period and discusses the beginning of mining enterprises from the beginning. Colonial rule began with the British South Africa Company, administering the two territories acquiring mining the Barotse concessions in North-Western Rhodesia, followed by an assortment of treaties with a number African chiefs in North-Eastern Rhodesia. As the country did not have geological maps, mineral deposits had to be found by amateur prospectors employed by a number of mining companies. With this support, prospectors fanned parts of the country, looking for valuable and economically exploitable minerals deposits in various parts of the country. Copper deposits were dominant. Some deposits located on sites of ancient mines in the Kafue Hook, Kansanshi, and Bwana Mkubwa were pegged with the help of African chiefs and citizens as guides. Others, such as the zinc and lead found at Broken Hill mine and the Sassare gold in Petauke, were found by sheer luck and chance.

Consideration is also given to wider problems concerning the pre-colonial history of certain parts of Africa. Attitudes towards the study and understanding of various aspects of historical development both among scholars and the public are also reviewed.

The History of Africa - Molefi Kete Asante 2018-12-18

Authoritative and comprehensive, *The History of Africa* provides an accessible narrative from earliest prehistory to the present day, with unusual attention paid to the ordinary lives of Africans. This survey includes a wealth of indigenous ideas, African concepts, and traditional outlooks that have escaped the writing of African history in the West. The fully updated new edition includes information on the recent conflicts in Libya and the Sudan, as well as additional content on the experiences and contributions of women. A companion website offers a wealth of supporting resources for each chapter, including new historic maps, primary sources, video and audio clips, and links to sites for further research. Richly illustrated and clearly written, this volume is an indispensable introduction to the major developments, personalities, and events that have shaped the history of the African continent.

[A Brutal State of Affairs](#) - Henrik Ellert 2020-04-02

A Brutal State of Affairs analyses the transition from Rhodesia to Zimbabwe and challenges Rhodesian mythology. The story of the BSAP, where white and black officers were forced into a situation not of their own making, is critically examined. The liberation war in Rhodesia might never have happened but for the ascendancy of the Rhodesian Front, prevailing racist attitudes, and the rise of white nationalists who thought their cause just. Blinded by nationalist fervour and the reassuring words of the Ministry of Internal Affairs and army commanders, the Smith government disregarded the advice of its intelligence services to reach a settlement before it was too late. By 1979, the Rhodesians were staring into the abyss, and the war

was drawing to a close. Salisbury was virtually encircled, and guerrilla numbers continued to grow. *A Brutal State of Affairs* examines the Rhodesian legacy, the remarkable parallels of history, and suggests that Smith's Rhodesian template for rule has, in many instances, been assiduously applied by Mugabe and his successors.

Rhodesian Prehistory - 1978

[Becoming Zimbabwe. A History from the Pre-colonial Period to 2008](#) - Brian Raftopoulos 2009-09-15
Becoming Zimbabwe is the first comprehensive history of Zimbabwe, spanning the years from 850 to 2008. In 1997, the then Secretary General of the Zimbabwe Congress of Trade Unions, Morgan Tsvangirai, expressed the need for a 'more open and critical process of writing history in Zimbabwe. ...The history of a nation-in-the-making should not be reduced to a selective heroic tradition, but should be a tolerant and continuing process of questioning and re-examination.' *Becoming Zimbabwe* tracks the idea of national belonging and citizenship and explores the nature of state rule, the changing contours of the political economy, and the regional and international dimensions of the country's history. In their Introduction, Brian Raftopoulos and Alois Mlambo enlarge on these themes, and Gerald Mazarire's opening chapter sets the pre-colonial background. Sabelo Ndlovu tracks the history up to WW11, and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965. The politics and economics of the UDI period, and the subsequent war of liberation, are covered by Joseph Mtisi, Munyaradzi Nyakudya and Teresa Barnes. After independence in 1980, Zimbabwe enjoyed a period of buoyancy and hope. James Muzondidya's chapter details the transition 'from buoyancy to crisis', and Brian Raftopoulos concludes the book with an analysis of the decade-long crisis and the global political agreement which followed.

Cities in the World: 1500-2000: v. 3 - Adrian Green 2018-12-13

Papers presented at the *Cities in the World* conference held at Southampton University and organised through the Society for Post-Medieval Archaeology challenged the commonly held perception that cities are about the present and the future, not about the past. All cities have an innate sense of the past, and this volume, encompassing as it does
