Narrating Migration - Sabina Perrino 2019-12-19

This book reflects on the myriad ways in which forms of exclusion and inclusion play out in narratives of migration, focusing on the case of Northern Italian narratives in today's superdiverse Italy. Drawing on over a decade of the author's fieldwork in the region, the volume examines the emergence of racialized language in conversations about migrants or migration issues in light of increasing recent migratory flows in the European Union, couched in the broader context of changing socio-political forces such as anti-immigration policies and nativist discourse in political communication in Italy. The book highlights case studies from everyday discourse in both villages and cities and at different levels of society to explore these "intimacies of exclusion," the varying degrees to which inclusion and exclusion manifest themselves in conversation on migration. The book also employs a narrative practice-based approach which considers storytelling as a more dynamic form of discourse, thus allowing for equally new ways of analyzing their content and impact. Offering a valuable contribution to the growing literature on narratives of migration, this volume is key reading for graduate students and scholars in linguistic anthropology, sociolinguistics, sociocultural anthropology, language and politics, and migration studies.

The Canadian Short Story - Reingard M. Nischik 2007

Beginning in the 1890s, reaching its first full realization by modernist writers in the 1920s, and brought to its heyday during the Canadian Renaissance starting in the 1960s, the short story has become Canada's flagship genre. It continues to attract the country's most accomplished and innovative writers today, among them Margaret Atwood, Mavis Gallant, Alice Munro, Clark Blaise, and many others. Yet in contrast to the stature and popularity of the genre and the writers who partake in it, surprisingly little literary criticism has been devoted to the Canadian short story. This book redresses that imbalance by providing the first collection of critical interpretations of thirty well-known and often-anthologized Canadian short stories from the genre's beginnings through the twentieth century. A historical survey of the genre introduces the volume and a timeline comparing the genre's development in Canada, the US, and Great Britain completes it. Geared both to specialists in and students of Canadian literature, the volume is of particular benefit to the latter because it provides not only a collection of interpretations, but a comprehensive introduction to the history of the Canadian short story. Contributors: Reingard M. Nischik, Martina Seifert, Heinz Antor, Julia Breitbart, Konrad Gross, Paul Goetsch, Dieter Meindl, Nina Kück, Stefan Ferguson, Rudolf Bader, Fabienne C. [Speaking in the Past Tense](#) - Herb Wyile 2009-10-22

"Speaking in the Past Tense participates in an expanding critical dialogue on the writing of historical fiction, providing a series of reflections on the process from the perspective of those souls intrepid enough to step onto what is, practically by definition, contested territory." — Herb Wyile, from the Introduction The extermination of the Beothuk ... the exploration of the Arctic ... the experiences of soldiers in the trenches during World War I ... the foibles of Canada's longest-serving prime minister ... the Ojibway sniper who is credited with 378 wartime kills—these are just some of the people and events discussed in these candid and wide-ranging interviews with eleven authors whose novels are based on events in Canadian history. These sometimes startling conversations take the reader behind the scenes of the novels and into the minds of their authors. Through them we explore the writers' motives for writing, the challenges they faced in gathering information and presenting it in fictional form, the sometimes hostile reaction they faced after publication, and, perhaps most interestingly, the stories that didn't make it into their novels. Speaking in the Past Tense provides fascinating insights into the construction of national historical narratives and myths, both those familiar to us and those that are still being written.

[The Kid Looks Back-Short Stories & Tall Tales](#) - Ritchie R. Moorhead 2011-07-12

The Kid Looks Back is a collection of sixty-eight stories that cover a wide range of topics. I hope that his book will be a gentle hiding place where you can go to get away from something, return to something or go where

you have never been. Some of these stories are true. Others are factually true, although bit embellished. Others are outright fabrications. Most look back to a kinder, mellower time. Digging for worms, swimming in a pond, using an outhouse or wading in a river may bring gross evaluations from our urbanized cousins. I hope that this book introduces them to life with a smile. Most of the stories have a message. Many are simply humorous. Entertainment is the motive. Carefree is the mood. Try to find yourself within these pages. May the beak of reality crack your comfort shell. Start anywhere. Finish anytime. Enjoy!

Post-Jungian Psychology and the Short Stories of Ray Bradbury and Kurt Vonnegut - Steve Gronert Ellerhoff 2016-02-22

In this book, Steve Gronert Ellerhoff explores short stories by Ray Bradbury and Kurt Vonnegut, written between 1943 and 1968, with a post-Jungian approach. Drawing upon archetypal theories of myth from Joseph Campbell, James Hillman and their forbearer C. G. Jung, Ellerhoff demonstrates how short fiction follows archetypal patterns that can illuminate our understanding of the authors, their times, and their culture. In practice, a post-Jungian 'mythodology' is shown to yield great insights for the literary criticism of short fiction. Chapters in this volume carefully contextualise and historicize each story, including Bradbury and Vonnegut's earliest and most imaginatively fantastic works. The archetypal constellations shaping Vonnegut's early works are shown to be war and fragmentation, while those in Bradbury's are family and the wholeness of the sun. Analysis is complemented by the explored significance of illustrations that featured alongside the stories in their

first publications. By uncovering the ways these popular writers redressed old myths in new tropes—and coined new narrative elements for hopes and fears born of their era—the book reveals a fresh method which can be applied to all imaginative short stories, increasing understanding and critical engagement. *Post-Jungian Psychology and the Short Stories of Ray Bradbury and Kurt Vonnegut* is an important text for a number of fields, from Jungian and Post-Jungian studies to short story theories and American studies to Bradbury and Vonnegut studies. Scholars and students of literature will come away with a renewed appreciation for an archetypal approach to criticism, while the book will also be of great interest to practising depth psychologists seeking to incorporate short stories into therapy.

The Verbal System of Classical Hebrew in the Joseph Story - Yoshinobu Endo 2018-07-17

The present study investigates the function of the verbal forms in biblical Hebrew narrative, using the Joseph story (Gen. 37-50) as a corpus. It demonstrates how the 'tense', 'aspect' and 'sequentiality' function as factors in the choice of the verbal forms in both main clauses and subordinate clauses.

I Never Call It Big Bang - George Gamow: The Extraordinary Story Of A Genius Of Physics - Alessandro Bottino 2022-03-07

This book tells the incredible story of George Gamow, one of the most brilliant and extravagant physicists of the past century. Gamow was born in Russia in 1904 and died in the USA in 1968. He lived his life in a time between the twenties and the sixties, characterized by rapid developments in physics and became a key figure of that time. Gamow's true merits were seldom fully recognized. Yet his ideas are behind a number of Nobel Prizes for Physics during the past century. His remarkable achievements in Nuclear Physics, Astrophysics and Cosmology were the result of a combination of expertise and creativity, intuition and, importantly, of a good sense of humor. Together they craft the image of a true revolutionary scientist. Gamow also had a natural talent for popularization and was throughout his life a successful science communicator. The figure of Gamow is interesting also from a cultural perspective. His life stretches across a critical period in our history and moves geographically from Russia to the USA, via Europe. His story provides insights into the complex dialogue between historical events and scientific developments during the twentieth century. Our book builds on the extensive interview that science historian Charles Weiner

did with Gamow shortly before his death. Here Gamow offers a complete survey of his scientific achievements. Tapping onto their dialogue, we have enriched the picture of Gamow's figure with materials gathered also from other sources. First of all, we discuss his autobiography, in which Gamow mainly focuses on the education he received in Russia and on his

experience as a young scientist in Europe. We contrast this with relevant writings about his, at times, controversial role in the scientific environment of his epoch. Altogether, these form a critical and complex representation of the life and character of this extraordinary scientist and human being.
