Treading Grapes - Rosemary George 2011-11-30

Tuscany offers some of the most spectacular scenery in Europe. The unique combination of cypress trees and olive groves mingling with vineyards and woods on undulating hillsides is enchanting. With villages and villas at every turn, what better way to explore the countryside than on foot? Over fifteen months of changing seasons Rosemary George did just that, visiting wine producers along the way, observing and savouring the local colour and the idiosyncrasies of a myriad of winemakers. Each chapter will feature a walk through a wine region and include advice on the key estates, places to visit and favourite restaurants.

Chianti, which covers the heart of Tuscany, is the wine we all know and love, with vineyards in the magical hills around Florence and Siena, and the medieval cities of Arezzo and Pisa. However, the face of Tuscan viticulture has changed enormously in recent years with the development of the vineyards of the Maremma, bringing a host of new wines. *Treading Grapes* charts this wonderful renaissance of Tuscan wines, not just of Chianti, but also of the newer prestigious names such as Sassicaia and Ornellaia in the rising area of Bolgheri. It also covers the old-established wines of Brunello di Montalcino and Vino Nobile di Montepulciano, and several others, not least the island of Elba. It will be enjoyed by wine enthusiasts and armchair travellers alike.

What Makes Clusters

Competitive? - Anil Hira
2013-11-01

While global competitiveness is increasingly invoked as necessary for economic success stories, there are few answers available about how it can be achieved or maintained. The idea of stimulating industries to spur on economies is often proposed, but industrial policy can be seen as a boondoggle of government spending, and theorists of globalization are doubtful that such efforts can succeed in a world of fragmented supply chains.

What Makes Clusters

Competitive? tests fundamental theoretical hypotheses about what makes industries competitive in a globalized world by using the wine industries of several countries as case studies: Extremadura (Spain), Tuscany (Italy), South Australia, Chile, and British Columbia (Canada), Taking into account historical and location-specific characteristics, and

drawing out policy lessons for other regions that would like to promote their industries, this volume demonstrates the value of applying cluster theory to understand market forces, while also describing the forces underlying the development of the wine industry in a range of different settings. An excellent resource for those interested in what makes industries succeed or struggle, What Makes Clusters Competitive? offers guidance for policymakers and the private sector on how to promote local industries. Contributors include David Aylward, Alexis Bwenge, Sara Daniele, F.J. Mesías Díaz, Christian Felzenstein, Husam Gabreldar, F. Pulido García, Sarah Giest, Elisa Giuliani, Andy Hira, Mike Howlett, A.F. Pulido Moreno, and Oriana Perrone.

Mindful of the region's fascinating past, Belfrage brings its story up to date, discussing such subjects as geology and geography, grape varieties, and the latest research into Sangiovese, the variety used in the top wines of Chianti Classico, Brunello di Montalcino, and Vino Nobile di Montepulciano. He also clarifies the regulatory framework and follows the recent controversial developments in viticulture and winemaking, including the rise of the Super-Tuscans and the

ongoing "Brunellogate" scandal that broke in 2008. At the heart of the book are in-depth, illustrated profiles of more than 90 of the most interesting producers, large and small, with insightful notes on the essential character of their finest wines. The Hills of Chianti - Piero Antinori 2014-09-09

The head of Italy's "first family" of winemaking reflects on the Antinoris' six-hundred-year legacy and a life of good food and drink in the hills of Tuscany. If you know wine, you know the name Antinori. Since 1385, this noble Florentine family has produced some of Italy's finest wines. The Hills of Chianti tells the story of the Antinoris and the Tuscany they call home, through seven iconic bottles that define their legacy. From the Tignanello that ushered in the era of Super Tuscans to limited-edition

vintages, these wines embody a way of life and will excite oenophile readers and lovers of Italy alike. In this family memoir Piero Antinori reveals the passion, tradition, and love of craft that have driven twenty-seven generations of vintners: from the first ancestor who signed up to the winemakers guild in the fourteenth century to Antinori's own three daughters, poised to carry this most celebrated family of artisans into the future. But The Hills of Chianti is about much more than wine. At its heart the Antinori story is about "Tuscan-ness": a connection to the land, an appreciation for good food and drink, and the quintessentially Italian love of hospitality that

make this one of the world's most inspiring and memorable destinations.
