West's Business Law - Kenneth W. Clarkson 2004

This text is used at more colleges and universities than any other business law text. With the perfect balance of tradition and innovation, this benchmark text brings to life the functions and inner-workings of business law in the real world. Rich with classic and modern cases, West's Business Law is the ideal text for students entering virtually any field of business. By combining this market leading text with a complete supplements and technology package, this is the one clear choice in business law courses.

The Age of Eisenhower - William I Hitchcock 2018-03-20

A New York Times bestseller, this is the “outstanding” (The Atlantic), insightful, and authoritative account of Dwight Eisenhower’s presidency. Drawing on newly declassified documents and thousands of pages of unpublished material, The Age of Eisenhower tells the story of a masterful president guiding the nation through the great crises of the 1950s, from McCarthyism and the Korean War through civil rights turmoil and Cold War conflicts. This is a portrait of a skilled leader who, despite his conservative inclinations, found a middle path through the bitter partisanship of his era. At home, Eisenhower affirmed the central elements of the New Deal, such as Social Security; fought the demagoguery of Senator Joseph McCarthy; and advanced the agenda of civil rights for African-Americans. Abroad, he ended the Korean War and avoided a new quagmire in Vietnam. Yet he also charted a significant expansion of America’s missile technology and deployed a vast array of covert operations around the world to confront the challenge of communism. As he left office, he cautioned Americans to remain alert to the dangers of a powerful military-industrial complex that could threaten their liberties. Today, presidential historians rank Eisenhower fifth on the list of great presidents, and William Hitchcock’s “rich narrative” (The Wall Street Journal) shows us why Ike’s stock has risen so high. He was a gifted leader, a decent man of humble origins who used his powers to advance the welfare of all Americans. Now more than ever, with this “complete and persuasive assessment” (Booklist, starred review), Americans have much to learn from Dwight Eisenhower.

West's Legal Environment of Business - Frank B. Cross 2001

Based on the best-selling West's Business Law, this text maintains its most popular features and continues to offer flexibility for different teaching philosophies. While focusing on public law issues such as ethics, government regulation, and administrative law, it also provides a good balance of private law topics such as contracts and sales. Selected cases begin with either a "Historical and Social Setting" or a "Company Profile" and address the AACSB's curriculum requirements by focusing on global, political, ethical, social, environmental, technological, and cultural diversity issues.

Nineteen Eighty-Four - George Orwell 2021-01-09

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the

world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Journal of Legal Studies in Business - 1999

Business Law Today, Comprehensive - Roger LeRoy Miller 2018-12-17

Discover the excitement of cutting-edge business law as BUSINESS LAW TODAY: COMPREHENSIVE, 12E immerses you in a wide selection of intriguing new cases and thorough coverage of the latest developments in the field. The Brain That Changes Itself - Norman Doidge 2007-03-15

“Fascinating. Doidge’s book is a remarkable and hopeful portrait of the endless adaptability of the human brain.”—Oliver Sacks, MD, author of The Man Who Mistook His Wife for a Hat What is neuroplasticity? Is it possible to change your brain? Norman Doidge’s inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst,

Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

The Legal Environment of Business - 2015

The Enforcement of Morals - Patrick Devlin 2010-01-31

Are morals always relative? Are private actions--among consenting adults--always beyond the law? Or are there some behaviors which so weaken a society that common beliefs about right and wrong must be enforced to protect the common good? In opposing the decriminalization of private acts of homosexuality in Britain, Patrick Devlin maintained that not only is it reasonable to allow popular morality to influence lawmaking, it is imperative: ". . . For a society is not something that is kept together physically; it is held by the invisible bonds of common thought." Some sidestep this controversial issue by asserting that the law should not be used to enforce any morality. Others invoke John Stuart Mill's doctrine that the only purpose for laws governing any member of society is to prevent harm to others, chiefly physical harm. But, Devlin argued, while breaches of shared morality do not cause harm to other individuals in the way that murder and assault do, they do harm society by undermining its moral structure. Patrick Devlin (1905-1992) studied history and law at Cambridge University and became a successful lawyer.

Paralegal Today: The Essentials - Roger LeRoy Miller 2016-02-05

Designed for anyone considering a career as a paralegal, the 7th edition of PARALEGAL TODAY: THE ESSENTIALS provides students with a comprehensive introduction to the legal system through real-world examples, practical applications, ethical dilemmas, and hands-on assignments. With thorough coverage of the basic, key areas of paralegal studies, this text ensures that students develop a comprehensive understanding of the laws in our society, the importance of ethical and professional responsibility, and the skills needed to thrive in the legal environment. The text includes increased coverage of technology in the workplace, including critical topics such as confidentiality issues, e-mail policies, technology in the courtroom, and the use of social media in crime detection and enforcing delinquent court judgments. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Op Amps for Everyone - Ron Mancini 2003

The operational amplifier ("op amp") is the most versatile and widely used type of analog IC, used in audio and voltage amplifiers, signal conditioners, signal converters, oscillators, and analog computing systems. Almost every electronic device uses at least one op amp. This book is Texas Instruments' complete professional-level tutorial and reference to operational amplifier theory and applications. Among the topics covered are basic op amp physics (including reviews of current and voltage division, Thevenin's theorem, and transistor models), idealized op amp operation and configuration, feedback theory and methods, single and dual supply operation, understanding op amp parameters, minimizing noise in op amp circuits, and practical applications such as instrumentation amplifiers, signal conditioning, oscillators, active filters, load and level conversions, and analog computing. There is also extensive coverage of circuit construction techniques, including circuit board design, grounding, input and output isolation, using decoupling capacitors, and frequency characteristics of passive components. The material in this book is applicable to all op amp ICs from all manufacturers, not just TI. Unlike textbook treatments of op amp theory that tend to focus on idealized op amp models and configuration, this title uses idealized models only when necessary to explain op amp theory. The bulk of this book is on real-world op amps and their applications; considerations such as thermal effects, circuit noise, circuit buffering, selection of appropriate op amps for a given application, and unexpected effects in passive components are all discussed in detail. *Published in conjunction with Texas Instruments *A single volume, professional-level guide to op amp theory and applications *Covers circuit board layout techniques for manufacturing op amp circuits.

Paralegal Today: The Essentials - Roger LeRoy Miller 2016-02-05

WBCN and the American Revolution - Bill Lichtenstein 2021-11-30

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of The Daily Show; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the "news dissector" Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein's documentary WBCN and the American Revolution is available as a DVD sold separately.

The Second Media Age - Mark Poster 2018-03-08

This book examines the implications of new communication technologies in the light of the most recent work in social and cultural theory and argues that new developments in electronic media, such as the Internet and Virtual Reality, justify the designation of a "second media age".

The Legal Environment Today - Roger LeRoy Miller 2019

Based on content required by the Association to Advance Collegiate Schools of Business, THE LEGAL ENVIRONMENT TODAY: BUSINESS IN ITS ETHICAL, REGULATORY, E-COMMERCE, AND GLOBAL SETTING, 8e equips you with working knowledge of business-related laws while strengthening the critical reasoning skills you need to interpret and apply them. Coverage includes the latest on cyber law, social media, privacy, corporate responsibility, financial and credit card reforms, health-care laws, and much more. Using carefully selected cases, the text helps you identify and resolve legal issues you may encounter in the business world. Hypothetical situations and exercises, ethical discussions, and international considerations give you further insight into how business law applies to your everyday life and future career. In addition, exam preparation sections in the text and online access to interactive flash cards, quizzing, and other tools help maximize your course success.

Cengage Advantage Books: Essentials of the Legal Environment Today - Roger LeRoy Miller 2015-01-01

Current, succinct, and student-friendly, ESSENTIALS OF THE LEGAL ENVIRONMENT, 5E delivers complete one-semester coverage of business law and its environment in a straightforward, nontechnical style. Cases are summarized by the authors and integrated throughout chapters. Miller explains legal issues and court decisions with minimal legal jargon while keeping readers engaged with the material. Hands-on applications help students strengthen their critical thinking skills as well as think through ethical dilemmas before they confront them in the workplace. The book also explores how traditional law has been applied to issues involving the Internet and how the laws of other nations deal with topics discussed in the text. In addition to Cases and Case Problems featuring issues from legal disputes in 2013 and 2014, the fifth edition includes an all-new chapter on Internet Law, Social Media, and Privacy, new Managerial Strategy features, new Preventing Legal Disputes features, and more. West's Paralegal Today - Roger LeRoy Miller 2006-06-30

West's Paralegal Today: The Legal Team at Work, fourth edition, makes the paralegal field come alive for the student. It uses real-world examples, offering practical application of each concept discussed, and further enhances this focus with hands-on activities throughout. The text gives the student a thorough

introduction to not only the legal system in general, but to specific areas of the law and the paralegal's integral role as a member of the legal team. The student gains a comprehensive understanding of the laws in our society, the importance of ethical and professional responsibility, and the skills needed to thrive in this environment. Technology features, including spotlights on how technology is changing litigation, legal research, and overall office management, convey the importance of developing strong skills in this area. Paralegal Profiles and Featured Guests bring a personal touch to the material - as students learn how professionals truly work in each area of the law and how each skill directly translates on-the-job. Ethical dilemmas challenge the students to further understand their professional duties and critical thinking questions provide an opportunity to sharpen their proficiency. In this way, paralegal students learn not only about the substantive areas of the law, but how to excel as a professional in each one.

Disease Control Priorities in Developing Countries - Dean T. Jamison 2006-04-02

Based on careful analysis of burden of disease and the costs of interventions, this second edition of 'Disease Control Priorities in Developing Countries, 2nd edition' highlights achievable priorities; measures progress toward providing efficient, equitable care; promotes cost-effective interventions to targeted populations; and encourages integrated efforts to optimize health. Nearly 500 experts - scientists, epidemiologists, health economists, academicians, and public health practitioners - from around the world contributed to the data sources and methodologies, and identified challenges and priorities, resulting in this integrated, comprehensive reference volume on the state of health in developing countries.

Paralegal Today - Roger Leroy Miller 2016-04-08

Designed for anyone considering a career as a paralegal, the 7th edition of PARALEGAL TODAY: THE ESSENTIALS provides you with a comprehensive introduction to the legal system through real-world examples, practical applications, ethical dilemmas, and hands-on assignments. With thorough coverage of the basic, key areas of paralegal studies, this text ensures that you will develop a comprehensive understanding of the laws in our society, the importance of ethical and professional responsibility, and the skills needed to thrive in the legal environment. The text includes increased coverage of technology in the workplace, including critical topics such as confidentiality issues, e-mail policies, technology in the courtroom, and the use of social media in criminal and civil litigation.

The Rights of the Accused Under the Sixth Amendment - Paul Marcus 2012

Looks at The Sixth Amendment to the United States Constitution and those key provisions which impact mightily on defendants in criminal prosecutions. This book examines the range of essential criminal justice topics that fall within the scope of the Sixth Amendment.

Money, Banking, and Financial Markets - Roger LeRoy Miller 2004

Focussing on money and banking, this text provides an integrated coverage of topics that are important to these fields in the 21st century.

The Legal Environment Today: Business In Its Ethical, Regulatory, E-Commerce, and Global Setting - Roger LeRoy Miller 2012-02-02

THE LEGAL ENVIRONMENT TODAY: BUSINESS IN ITS ETHICAL, REGULATORY, E-COMMERCE, AND GLOBAL SETTING, 7th Edition gives students the working knowledge of business-related laws recommended by the Association to Advance Collegiate Schools of Business, and helps strengthen the reasoning skills they need to interpret and apply them.
