Low-Power NoC for High-Performance SoC Design - Hoi-Jun Yoo 2008-03-31

Chip Design and Implementation from a Practical Viewpoint Focusing on chip implementation, Low-Power NoC for High-Performance SoC Design provides practical knowledge and real examples of how to use network on chip (NoC) in the design of system on chip (SoC). It discusses many architectural and theoretical studies on NoCs, including design methodology, topology exploration, quality-of-service guarantee, low-power design, and implementation trials. The Steps to Implement NoC The book covers the full spectrum of the subject, from theory to actual chip design using NoC. Employing the Unified Modeling Language (UML) throughout, it presents complicated concepts, such as models of computation and communication-computation partitioning, in a manner accessible to laypeople. The authors provide guidelines on how to simplify complex networking theory to design a working chip. In addition, they explore the novel NoC techniques and implementations of the Basic On-Chip Network (BONE) project. Examples of real-time decisions, circuit-level design, systems, and chips give the material a real-world context. Low-

Power NoC and Its Application to SoC Design Emphasizing the application of NoC to SoC design, this book shows how to build the complicated interconnections on SoC while keeping a low power consumption.

Green Book - U.s. Department of the Treasury 2015-12-28

Welcome to the Green Book a comprehensive guide for financial institutions that receive ACH payments from the Federal government. Today, the vast majority of Federal payments are made via the ACH. With very few exceptions, Federal government ACH transactions continue to be subject to the same rules as private industry ACH payments. As a result, the Green Book continues to get smaller in size and is designed to deal primarily with exceptions or issues unique to Federal government operations.

Earth Shasthra - Lion Dr Kiron 2019-08-21

Roti, Kapada & Makaan Our very own Indian Dream falls short of its credibility in today's world where people spend incredible amount and time on temporary investments like food and fashion but have zero information and knowledge about land. In the Indian scenario, every other sector has websites, advertising segments and crores spent on updating the trends in fashion, vehicles and consumer goods, but so little is said and done about the real estate sector. In reality, the truth is that every business and literally the whole world works on the financial viability of land/property. People have always been intimidated by land and the intricate yet simple intelligence that is required to be an owner of a property. This book aims to bridge the gap between the common man and the extensive knowledge available on the internet and in reality. There are no wise investments, only wise people who arm themselves with ample knowledge and push ahead by hard work. These people take success and failure as two sides of a coin and forge pathways towards

building a legacy of their own. Your journey starts here! My journey through the concrete jungle of realty for the past three decades has provided me with the knowledge that 'people dictate progress,' not vice versa. Invest in land, and it will definitely take care of you. The most reliable and dependable part of humanity is the land we stand on. Invest in it, nurture it and make it an asset for the generations to come. Lion .Dr Kiron (Builder, Businessman, Philanthropist & Globetrotter) www.earthshashtra.com

Nepal - International Monetary Fund 2006-11-16

Major political developments have taken place in Nepal since the Executive Board concluded the Article IV Consultation in January 2006. The Koirala government is keen on early resumption of the IMF-supported program to help maintain macroeconomic stability. The international community has welcomed the peace process and has extended financial aid. Progress on structural reforms was slow owing to political uncertainties, an unsettled security environment, and inertia in policy implementation. The authorities outlined an economic program for 2006/07 consistent with Poverty Reduction Strategy Paper (PRSP)/Poverty Reduction and Growth Facility (PRGF) objectives.
