Shaker Dishcloths & Coasters - Staci Perry 2014-02-01

Recently I had a cold virus, and I was running a fever. I also happened to be reading *A History of Hand Knitting* by Richard Rutt. In this book, he describes a dishcloth knit by colonial American Shakers, worked on size 2mm (US size 0) or smaller needles: "The washcloths were circular, made of 16 segments of garter stitch, arranged in alternating colours. The rows ran radially, decreasing from the centre in alternate shortened rows." I read this, and I knew I wanted to take these two sentences and write a modern pattern. The low-grade fever I was running made it difficult to think ahead very far, so I just knit, ripped out, knit, and ripped out - until I got it. This pattern is friendlier, using much bigger needles, delicious modern yarn, and has 12 color

[Sustainable Knitting for Beginners and Beyond](#) - epipa  
2021-05-07

Never before has it been so important to be aware of our environmental footprint and impact. As a knitter and yarn lover you will already be aware of the benefits of 'making' rather than 'buying' and the benefits of knitting with natural rather than synthetic fibres. But are you sure your yarn choices are as environmentally friendly as they could be? This collection of 20 projects from knitting blogger and environmentalist, Epipa, shows you how to knit more sustainably. With this practical guide you can learn how to make your knitting more environmentally friendly by choosing the most eco friendly yarns such as bamboo, organic cotton, linen and flax, as well as tips on how to reduce your yarn footprint. Drawing on her childhood experience where she was encouraged by her

grandmothers to reuse rather than throw things away, repair damaged clothes and homewares, and recycle unwanted linen to be used as cleaning rags and cloths, Epipa shares all her ideas for living a more sustainable lifestyle while still enjoying the craft of knitting. As well as advice on yarn sourcing and the environmental impact of various different types of yarn, Epipa shares her knitting patterns for a more zero waste lifestyle without the need for 'disposable' cloths and paper towels. There are instructions for how to turn old t shirts, bed linen and tablecloths into your own cotton yarn and how to restore unravelled yarn from unfinished projects to its former glory rather than laying abandoned in a cupboard. The projects include beautiful, useful and practical things for everyday life such as shopping baskets for the larder, the kitchen and the bathroom as well as rugs and runners and accessories for the bathroom. Choose from knitted tea towels, dish clothes, and shopping

bags so you don't need to buy 'disposable' plastic versions. Many of the projects are suitable for beginner knitters, and all the basic knitting instructions are included, but there are also more complicated projects including a knitted top and backpack for those with more experience. This is the perfect resource for any knitter wanting to reduce their carbon footprint and create wonderful, sustainable projects for their friends and family.
