The Nuwaubian Nation - Susan Palmer
2016-12-05

The Nuwaubian Nation takes the reader on a

journey into an African-American spiritual movement. The United Nuwaubian Nation has changed shape since its inceptions in the 1970s, transforming from a Black Hebrew mystery school into a Muslim utopian community in Brooklyn, N.Y.; from an Egyptian theme park into an Amerindian reserve in rural Georgia.

This book follows the extraordinary career of Dwight York, who in his teens started out in a New York street gang, but converted to Islam in prison. Emerging as a Black messiah, York proceeded to break the Paleman's spell of Kingu and to guide his people through a series of racial/religious identities that demanded dramatic changes in costume, gender roles and lifestyle. Dr. York's Blackosophy is analyzed as a new expression of that ancient mystical worldview, Gnosticism. Referring to theories in the sociology of deviance and media studies, the author tracks the escalating hostilities against the group that climaxed in a Waco-style FBI raid on the Nuwaubian compound in 2002. In the ensuing legal process we witness Dr. York's dramatic reversals of fortune; he is now serving a 135-year sentence as his Black Panther lawyer prepares to take his case to the Supreme Court. This book presents fresh and important insights into racist spirituality and the social control of unconventional religions in America.

NOBLE DREW ALI & THE MOORISH

SCIENCE TEMPLE OF AMERICA. THE MOVEMENT THAT STARTED IT ALL - Sheik

Way-El 2011-12-09

This book will take the reader on a journey to the early 1900's when the first man, Prophet Noble Drew Ali, did bring to the so called Negro, black, and colored, the first light of our lost knowledge of the east and founded the first Islamic organization in the United States. He would reveal to us our true identity of the Moabites whom are the Heralded Moors and he would teach us that we are not Negroes, Black Folks or Colored people because these names allude to slavery as they still do today. This is the first time in history that a book was dedicated to giving a public accounting of the history of Noble Drew Ali and the Moorish Science Temple of America insofar as the origins, the efflorescence, and the schism of the movement and the state of the Moorish nation today.

Christianity: The Devil's Greatest Trick - Adam Weishaupt 2013-01-25

It's a simple fact that most Christians know next to nothing about Christianity. How many people are aware of the many heresies that were stamped out by the early Church? Had any of these heresies triumphed, the world would be a very different, and much saner place. Find out about the monstrous St Augustine and his doctrines of grace, Original Sin, Predestination and the Total Depravity of the human race. This "saint" was happy to send to hell unbaptised babies that died in infancy. His great enemy was the humane and rational Celtic monk Pelagius. The great tragedy of Christianity is that it listened to Augustine rather than Pelagius. Were the Jews advocates of temple prostitution, even within the confines of Solomon's holy temple to Yahweh? The material in this book is provided by

the Pythagorean Illuminati, the oldest secret society in the world, and is not for petty, cheap, narrow-minded religious fanatics.

Apostate! No More Bazoodee: A Grenadian Quest to Think Outside the Box - Seon M. Lewis 2015-10-30

Most (if not all) Grenadians have grown up hearing stories of la diablesse, lagahou and sookooyant. But have you ever wondered about the origin of these stories? This book just doesn't re-tell these stories. It traces their origins, and looks at them as being influential in helping

shape our self-identity and our interpersonal relationship. In fact, this book examines and critiques aspects of the Grenadian sociocultural and sociopolitical culture that seek, in many ways, to minimize and suppress the individual's search for self-identity especially as he or she tries to pursue knowledge that appears to be outside the socially accepted. In doing so, this book follows the author's journey as he analyzes old ideas and engaged with new ones. Also central to this book is that it seeks to help the individual develop his or her moral and ethical awareness.

The Aliites - Spencer Dew 2019-08-20
"Citizenship is salvation," preached Noble Drew Ali, leader of the Moorish Science Temple of America in the early twentieth century. Ali's message was an aspirational call for black Americans to undertake a struggle for recognition from the state, one that would both ensure protection for all Americans through rights guaranteed by the law and correct the

unjust implementation of law that prevailed in the racially segregated United States. Ali and his followers took on this mission of citizenship as a religious calling, working to carve out a place for themselves in American democracy and to bring about a society that lived up to what they considered the sacred purpose of the law. In *The Aliites*, Spencer Dew traces the history and impact of Ali's radical fusion of law and faith. Dew uncovers the influence of Ali's teachings, including the many movements they inspired. As Dew shows, Ali's teachings demonstrate an implicit yet critical component of the American approach to law: that it should express our highest ideals for society, even if it is rarely perfect in practice. Examining this robustly creative yet largely overlooked lineage of African American religious thought, Dew provides a window onto religion, race, citizenship, and law in America.

Nuwaubian Pan-Africanism - Emeka C.
Anaedozie 2019-12-03

This book examines the contemporary operational and theoretical parameters of Pan-Africanism and black nationalism in the post-civil rights era. It uses the Nuwaubian movement as a case study to explore this essential strand in African Diasporan history, culture, and tradition. The author argues that the Nuwaubian Nation, like their contemporaries such as the Nation of Islam, represents contemporary efforts of African descendants to dialectically and culturally fight oppression. He argues that unlike the classical Back to Africa movements, the contemporary ones do not seek to primarily relocate to Africa, but to go to Africa culturally and bring back Africa to the diaspora. This effort can be seen in the Nuwaubian attempts at unearthing and importing classical African traditions, mores, and values in their in their various communities across the United States, especially in Eatonton, Georgia. Their aim was to chart an identity for their adherents and inspire racial pride for people of African

descent.

Metaphysical Africa - Michael Muhammad Knight 2021-11-30

The Ansaru Allah Community, also known as the Nubian Islamic Hebrews (AAC/NIH) and later the Nuwaubians, is a deeply significant and controversial African American Muslim movement. Founded in Brooklyn in the 1960s, it spread through the prolific production and dissemination of literature and lecture tapes and became famous for continuously reinventing its belief system. In this book, Michael Muhammad Knight studies the development of AAC/NIH discourse over a period of thirty years, tracing a surprising consistency behind a facade of serial reinvention. It is popularly believed that the AAC/NIH community abandoned Islam for Black Israelite religion, UFO religion, and Egyptosophy. However, Knight sees coherence in AAC/NIH media, explaining how, in reality,

the community taught that the Prophet Muhammad was a Hebrew who adhered to Israelite law; Muhammad's heavenly ascension took place on a spaceship; and Abraham enlisted the help of a pharaonic regime to genetically engineer pigs as food for white people. Against narratives that treat the AAC/NIH community as a postmodernist deconstruction of religious categories, Knight demonstrates that AAC/NIH discourse is most productively framed within a broader African American metaphysical history in which boundaries between traditions remain quite permeable. Unexpected and engrossing, Metaphysical Africa brings to light points of intersection between communities and traditions often regarded as separate and distinct. In doing so, it helps move the field of religious studies beyond conventional categories of "orthodoxy" and "heterodoxy," challenging assumptions that inform not only the study of this particular religious community but also the field at large.
