Lime Rock Park: The Early Years - Terry O'Neil 2021-12-06

A look at the tumultuous early years of American's oldest continuously operated road racecourse. Lime Rock Park in Connecticut--American's oldest continuously operated road course--came about more by accident than design. Construction of the course began in 1955, when open road racing had been banned in many states, and the use of military and civil airport runways for racing was losing favor with audiences. Dubbed "the Road Racing Center of the East," the park has a turbulent history bedeviled by financial crises, discord with racing organizers, and extensive legal troubles, but it managed to prevail against steep odds. Terry O'Neil's book details this history of mixed fortunes during the first twenty years of the park's existence. Containing more than a thousand images, hundreds of race results, and a wealth of previously unseen material, Lime Rock Park is a thorough deep dive into the rocky beginnings of a crucial site in the history of American automobile racing.

Car Racing 1966 Hb - Johnny Rives 2021-03-08

The Ford GT 40, Alpine, Ferraris, BRM, Lotus, Mini Cooper and more, apotheoses of design and mechanical thunder, outdared each other continuously in pursuit of the top spot, in rallies and endurance races such as Le Mans. Indeed, it was in 1966 that one of the authors of this work, Johnny Rives, got to drive the n° 53 car down the Hunaudières straight. The drivers, whether at Le Mans, in hill-climbs or on the first circuits of what had not yet become the full circus that is Formula 1, were universally accessible and welcoming, smiling at amateurs and the media, who were not yet clustered in droves around the route or track. Amazing memories! Text in English and French.

FIAT in Motorsport - Tony Bagnall 2021-11-16

FIAT in Motorsport is an in-depth look at Fiat's historical and prestigious involvement in all forms of motorsport from the earliest days of racing right up to the present day. The achievements of the cars and drivers are described in detail, along with many original photographs, sourced from the official Fiat archives. In the early days, before the First World War, Fiat was a major contender in Grand Prix racing, and employed many of the leading drivers of the era. Although it withdrew from Grand Prix racing in 1927, Fiat cars were still to be seen participating in high-profile races, such as the Mille Miglia. In these events most Fiat models were sports editions of the highly successful 'Balilla' range. In 1952 the introduction of the sensational 8V coupé resulted in many racing successes in private owners' hands, while the late 1950s saw the introduction of 'Formula Junior' class of racing and Fiat-engined cars were very successful in the early years. In the 1970s, Abarth, then owned by Fiat, successfully ran the rally team, which resulted in three World Championships. Speed record attempts over the years are also detailed in this fascinating history of Fiat's sporting achievements.

Crashed and Byrned - Tommy Byrne 2010-05-06

This is the thrilling, warts-engine-oil-and-all autobiography of the only racing driver Ayrton Senna ever feared - the 200mph flawed genius of Tommy Byrne. It tells the surreal tale of a poverty-stricken Dundalk kid's rise to become the only racing driver the great Ayrton Senna ever feared - and how it all went wrong from there. For a brief moment Tommy Byrne was arguably the world's greatest driver, the motor racing equivalent of George Best and Muhammad Ali rolled into one - A racer, a thief, a raconteur. This is the story of his improbable escape, his rapid rise and his spectacular and bizarre fall from grace. Peppered with dark humour and a cast of ridiculous characters, it is the antithesis of a fairytale - and it's all true. Hold on tight, the tale of Tommy Byrne is quite a ride - from fending for himself as the runt of a big Catholic litter in the '60s, running the gauntlet of the sectarian violence in the '70s, troubling Ayrton Senna and making it to F1 in the '80s, resorting to drugs in the aftermath and driving for a deluded billionaire madman and then gun-toting Mexicans in the '90s. It's raw, passionate, and - with Byrne's ability to tell it like it is - not for the faint-hearted.

Lancia Rally Group B - Sergio Remondino 2021-09-30

The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, "ephemeral player" of a still-born Group S, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a

series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.

Mr Le Mans - Tom Kristensen 2021-05-18

Between 1997 and 2014, Tom Kristensen won the world's toughest motor race, the Le Mans 24 Hours, a record nine times and finished on the podium on five more occasions. Every time his car made it to the finish, in fact, he was in the top three. It is no wonder that this great sports car driver is known as 'Mr Le Mans' to motorsport fans around the world. Now retired from racing, Kristensen shares in this book his deepest personal reflections and insights from inside and outside the cockpit. He looks back on more than 30 years spent striving for perfection in racing and tells of the battles and setbacks that sometimes seemed impossible to overcome, including a terrible accident in 2007. Climbing the racing ladder, from karting into Formula 3 single-seaters, including championship titles in Germany (1991) and Japan (1993), then Formula 3000 and a Formula 1 testing role with Tyrrell. Winning as an underdog on his first visit to Le Mans, in 1997 driving an elderly Joest-run privateer Porsche in which he impressed all onlookers with a night-time charge to vanquish Porsche's factory-entered favourite. His second Le Mans victory came in 2000 on his maiden drive for Audi in the R8, a car that was to become all-conquering. Kristensen won the next five editions of Le Mans, four times with Audi and once with Bentley (in 2003), his last victory in this sequence taking him past Jacky Ickx's previous record at the Circuit de la Sarthe. His eighth win came in one of the all-time classic contests at Le Mans, in 2008, a rollercoaster of a race in which his ageing diesel-powered Audi was never expected to beat the fancied works Peugeots. One more victory with Audi in 2013 sealed his reputation as a true legend of Le Mans. His story includes exploits at other racetracks all over the world, none more prolific than Sebring, home of America's long-established classic endurance race that Kristensen won six times. Personal reflections together with contributions from notable observers -- including English journalists Gary Watkins and Charles Bradley -- complete a truly rounded portrait of the man and his achievements. Voted 'Sports Book of the Year' when originally published in Kristensen's native Denmark, this thoughtful memoir is now available in English.

Derek Bell - Richard Heseltine 2018-07-17

Derek Bell's name became inextricably linked with that of Porsche during his long and hugely successful career as a racing driver. In this new 276-page book, Bell collaborates with renowned motorsport author Richard Heseltine to give the reader a very personal insight into his experiences racing for the legendary German marque. The approach taken by this latest publication from Porter Press International is to look at every race Bell drove for Porsche, in detail and with revealing comments from the book's subject. Light is cast on Bell's most prestigious victories with Porsche - four of his five in the Le Mans 24 Hours, three in the Daytona 24 Hours, two in the World Sportscar Championship - and many more besides. Bell describes the Porsches he raced, from the fearsome 917 to the iconic 956, 962, and 911. And he shares his thoughts on the now-legendary drivers he raced with, including six-time Le Mans winner Jacky Ickx, the famously flamboyant Hans Stuck, and two immense talents who lost their lives to the sport, Jo Siffert and Stefan Bellof. The overall effect is a fascinating trip back in time to a golden era for Porsche and sports car racing as a whole.

F1 Through the Eyes of Damon Hill - Damon Hill 1999-02

F1: Through the Eyes of Damon Hill is the dramatic behind-the-scenes story of the world of Formula One racing. It is a story of global proportions, deep human feelings and sporting magnificence which sweeps from the season-opening Australian Grand Prix in Melbourne through to the grand finale in Japan, where the nine-month season ends. In his own words, Hill charts the roller-coaster emotions and excitement of the marathon 16-race Grand Prix circus. He describes the strains, and pressures behind the garage doors; the massive effort required to revive a title challenge with his new Jordan team, the fears and thrills. Brilliantly illustrated, here is the world's fastest, most seductive - and expensive - sport as it really is. From the clamour and glamour of the pit lane to the privacy of the motor home, Damon Hill describes what it feels like to compete with Schumacher, Coulthard, Villeneuve and others for the 1998 Formula One World Championship. This is no 'Diary of a Season' fanzine but an intensely personal, thematic account of the most seductive sport of all - its rivalries the crucial importance of technology, and the pencil-thin margin between the chequered flag and failure.

Idaho Gems - Melody Bober 2015-02-11

The three pieces in Idaho Gems capture the spirit of this northwestern state. "White Pine Waltz" begins with a delicate melody in 3/4 meter inspired by the majestic western white pine, Idaho's state tree. The piece builds to a climactic middle section featuring flowing arpeggios in both hands before subsiding into a restatement of the theme. The second piece, "Craters of the Moon," paints a picture of the volcanic landscapes found in the national preserve of the same name. A repetitive chromatic figure in the lower register is combined with dissonant intervals in the upper register to capture the eerie otherworldliness of the park's lava fields. In "Snake River Rag," chromatic passages wind their way across the keyboard, inspired by the Snake River's twisted path through the Idaho countryside. "Western Gem" provides a dynamic conclusion to the suite. The piece makes full use of the keyboard with block chords and scalar

passages in both hands, while a modulation in the middle section provides an additional musical challenge.

Later the Jensen Healey too was raced by a small but dedicated band of drivers. Jim Clark - David Tremayne 2018-06-19

Jim Clark was a genuine sporting hero. He won 25 of his 72 Grands Prix and in the sixties was the yardstick by which every other driver on the starting grid was judged, and by which they judged themselves. Quite simply, Clark was peerless. Stubborn and notoriously indecisive outside the car, he would nervously chew his fingernails, but he was a genius when he got behind the wheel. To many he remains the greatest racing driver of all time, not just because of his fearsome strike rate and the magnitude and manner of his achievements, but also because he remained humble and unspoiled throughout. Published on the 50th anniversary of Clark's death, this book, 20 years in the making, is a deeply detailed look at a complex and compelling character.
