The Oxford Handbook of Transformations of the State - Stephan Leibfried 2015-06-11

This Handbook offers a comprehensive treatment of transformations of the state, from its origins in different parts of the world and different time periods to its transformations since World War II in the advanced industrial countries, the post-Communist world, and the Global South. Leading experts in their fields, from Europe and North America, discuss conceptualizations and theories of the state and the transformations of the state in its engagement with a changing international environment as well as with changing domestic economic, social, and political challenges. The Handbook covers different types of states in the Global South (from failed to predatory, rentier and developmental), in different kinds of advanced industrial political economies (corporatist, statist, liberal, import substitution industrialization), and in various post-Communist countries (Russia, China, successor states to the USSR, and Eastern Europe). It also addresses crucial challenges in different areas of state intervention, from security to financial regulation, migration, welfare states, democratization and quality of democracy, ethno-nationalism, and human development. The volume makes a compelling case that far from losing its relevance in the face of globalization, the state remains a key actor in all areas of social and economic life, changing its areas of intervention, its modes of operation, and its structures in adaption to new international and domestic challenges.

Immediate Family - Ashley Nelson Levy 2021-08-03

It is the day of her brother's wedding and our narrator is still struggling

with her toast. Despite a recent fracture between them, her brother, Danny, has asked her to give a speech and she doesn't know where to begin, how to put words to their kind of love. She was nine years old when she traveled with her parents to Thailand to meet her brother, six years her junior. They grew up together like any other siblings, and shared bucolic childhood in Northern California. Yet when she holds their story up to the light, it refracts in ways she doesn't expect. What follows is a heartfelt letter addressed to Danny and an attempt at a full accounting of their years growing up, invoking everything from the classic Victorian adoption plot to childless women in literature to documents from Danny's case file. It's also a confession of sorts to the parts of her life that she has kept from him, including her own struggle with infertility. And as the hours until the wedding wane, she uncovers the words that can't and won't be said aloud. In *Immediate Family*, a tender and fierce debut novel, Ashley Nelson Levy explores the enduring bond between two siblings and the complexities of motherhood, infertility, race, and the many definitions of family.

The Best American Essays 2015 - Ariel Levy 2015-10-06

"22 contributors explore a wide range of experiences" in this "illuminating, invaluable" anthology edited by the author of *Female Chauvinist Pigs* (Publishers Weekly). Writing an essay is like catching a wave, posits guest editor Ariel Levy. To catch a wave, you need skill and nerve, not just moving water. The writers featured in this volume are certainly full of nerve, and have crafted a wide range of pieces awash in a diversity of moods, voices, and stances. Leaving an abusive marriage, parting with a younger self, losing your sanity to Fitbit, and even saying goodbye to a beloved pair of pants are just some of the experience probed by essays that are unified in the daring of their creation. As Levy notes, Writing around an idea you think is worthwhile—an idea you suspect is an insight—requires real audacity." *The Best American Essays 2015* includes entries by Hilton Als, Roger Angell, Justin Cronin, Meghan Daum, Anthony Doerr, Margo Jefferson, David Sedaris, Zadie Smith, Rebecca Solnit and others.

I'm Not Just a Scribble - Alber 2017-06

Corporate Governance in Tanzania - Peter C. Mhando 2019-04-30

Increasingly the importance of corporate governance for economic development in developing economies like Tanzania is indisputable. This book explores the effectiveness of corporate governance in Tanzania and asks how it can be further developed and improved so as to make a difference in the contribution of state-owned enterprises to the economy. The book tries as fairly as possible to probe further into effective corporate governance, using cases of public entities, highlighting shortfalls in their governance and the consequent multiplier effects on socio-economic life. On the other hand, the book also aims to present examples of good governance in multi-layered ways, to show that there is room for creativity and innovation in applying principles of good corporate governance. Recognising that context is crucial, the book starts by assessing Tanzania's socio-historical and economic context, and gauging various applicable metrics. Using historical and theoretical lenses, including the ethics-accountability relationship, the author aims to improve our understanding of corporate failures and consequent waste in Tanzania. Explaining failures in governance is far from straightforward, as by definition they operate beyond rules and regulations, systems and processes, yet the author draws from decades of local experience and expertise in order to assess the real situation on the ground. The Tanzania case will be of considerable interest to researchers looking at questions of corporate governance and economic development both within the country itself, and across Africa.

Leading in a Culture of Change - Michael Fullan 2014-02-20

"At the very time the need for effective leadership is reaching critical proportions, Michael Fullan's *Leading in a Culture of Change* provides powerful insights for moving forward. We look forward to sharing it with our grantees." --Tom Vander Ark, executive director, Education, Bill and Melinda Gates Foundation "Fullan articulates clearly the core values and practices of leadership required at all levels of the organization. Using specific examples, he convinces us that the key change principles are equally critical for leadership in business and education organizations." --John Evans, chairman, Torstar Corporation "In *Leading in a Culture of Change*, Michael Fullan deftly combines his expertise in school reform with the latest insights in organizational change and leadership. The result is a compelling and insightful exposition on how leaders in any setting can bring about lasting, positive, systemic change in their organizations." --John Alexander, president, Center for Creative Leadership "Michael Fullan's work is remarkable. He masterfully captures how leaders can significantly improve their learning and performance, even in the uncontrollable, chaotic circumstances in which they practice. A tour de force." --Anthony Alvarado, chancellor of instruction, San Diego City Schools "Too often schools and businesses are seen as separate and foreign places. Michael Fullan blends the best of knowledge from each into an exemplary template for improving leadership in both." --Terrence E. Deal, coauthor of *Leading with Soul* Business, nonprofit, and public sector leaders are facing new and daunting challenges--rapid-paced developments in technology, sudden shifts in the marketplace, and crisis and contention in the public arena. If they are to survive in this chaotic environment, leaders must develop the skills they need to lead effectively no matter how fast the world around them is changing. *Leading in a Culture of Change* offers new and seasoned leaders' insights into the dynamics of change and presents a unique and imaginative approach for navigating the intricacies of the change process. Michael Fullan--an internationally acclaimed expert in organizational change--shows how leaders in all types of organizations can accomplish their goals and become exceptional leaders. He draws on the most current ideas and theories on the topic of effective leadership, incorporates case examples of large scale transformation, and reveals a remarkable convergence of powerful themes or, as he calls them, the five core competencies. By integrating the five core competencies--attending to a broader moral purpose, keeping on top of the change process, cultivating relationships, sharing knowledge, and setting a vision and context for creating coherence in organizations--leaders will be

empowered to deal with complex change. They will be transformed into exceptional leaders who consistently mobilize their compatriots to do important and difficult work under conditions of constant change.

Weak Knowledge - Annette Imhausen 2020-01-10

Many of us view the world of science as a firm bastion of knowledge, with each new discovery and further illumination adding to an unshakable foundation of natural truths. Weak Knowledge aims to rattle our faith, not in core certainties of scientific findings but in their strength as accessible resources. The authors show how, throughout history, many bodies of research have become precarious due to a host of factors. These factors have included cultural or social disinterest, feeble empirical evidence or theoretical justifications, and a lack of practical applications in a given field's findings. This book brings together cases from a range of historical periods and disciplines, ranging from personal medicine to climatology, to illuminate the specific forms, functions, and dynamics of so-called "weak" bodies of knowledge.

America in the Age of Trump - Douglas E. Schoen 2018-10-23

America in the Age of Trump is a bracing, essential look at the failure of a great nation to meet the needs of its people and the challenges of the age—and the resulting collapse of public trust in government, as well as a pervasive crisis of national values, from broken families to a loss of faith in the American idea itself. This crisis of values occurs just as the country faces an unprecedented array of fiscal, economic, social, and national-security challenges: out-of-control federal spending, frighteningly large deficits, massive gaps of income and opportunity, cultural division, and a dangerous world in which American power seems increasingly incidental. In *America in the Age of Trump*, Douglas E. Schoen and Jessica Tarlov offer a definitive and unique assessment of a nation in turmoil, looking beneath well-known problems to identify underlying yet poorly understood causes. Readers will confront the crises, one by one: of trust, values, and governance; of education, economic opportunity, and fiscal solvency; of national security, domestic tranquility, and race relations. *America in the Age of Trump* gathers in one place a clear and comprehensive evaluation of the fundamental issues confronting the American future while offering bold, fresh approaches to meeting these challenges. Other books have described the specter of American decline, but none has been so comprehensive in its diagnosis or forward-looking—and non-ideological—in its remedies, explaining how we might yet overcome national self-doubt to reclaim our traditional optimism, reassert our place in the world, and secure a prosperous future for our citizens.
