Appalled by the corruption, mismanagement, and poverty he discovers, he sets about

streaming, pop music has been our most influential laboratory for social and aesthetic experimentation, changing the world three minutes at a time. In *Love for Sale*, David Hajdu—one of the most respected critics and music historians of our time—draws on a lifetime of listening, playing, and writing about music to show how pop has done much more than peddle fantasies of love and sex to teenagers. From vaudeville singer Eva Tanguay, the “I Don’t Care Girl” who upended Victorian conceptions of feminine propriety to become one of the biggest stars of her day to the scandal of Blondie playing disco at CBGB, Hajdu presents an incisive and idiosyncratic history of a form that has repeatedly upset social and cultural expectations. Exhaustively researched and rich with fresh insights, *Love for Sale* is unbound by the usual tropes of pop music history. Hajdu, for instance, gives a star turn to Bessie Smith and the “blues queens” of the 1920s, who brought

wildly transgressive sexuality to American audience decades before rock and roll. And there is Jimmie Rodgers, a former blackface minstrel performer, who created country music from the songs of rural white and blacks . . . entwined with the sound of the Swiss yodel. And then there are today’s practitioners of Electronic Dance Music, who Hajdu celebrates for carrying the pop revolution to heretofore unimaginable frontiers. At every turn, Hajdu surprises and challenges readers to think about our most familiar art in unexpected ways. Masterly and impassioned, authoritative and at times deeply personal, *Love for Sale* is a book of critical history informed by its writer’s own unique history as a besotted fan and lifelong student of pop.

**Surrealist Women** - Penelope Rosemont 2000-12-01

Surrealist Women displays the range and significance of women's contributions to surrealism. Penelope Rosemont, affiliated with the Paris Surrealist Group in the 1960s and now a Chicago poet and painter, has assembled nearly three hundred texts by ninety-six women from twenty-eight countries. She opens the book with a succinct summary of surrealism's basic aims and principles, followed by a discussion of the place of gender in the origins of the movement. The texts are organised into historical periods ranging from the 1920s to the present, with introductions describing trends in the movement for each period; and each surrealist's work is prefaced by a brief biographical statement.

**Arcana 5** - John Zorn 2010  
Mysticism, magic and alchemy  
all come into play in the  
creative process. For centuries  
musicians have tapped into  
things spiritual, embracing  
ritual, spell, incantation and  
prayer deeply into their life and  
work. Although the connection  
of music to mysticism has been  
consistent, well documented  
and productive, it is still  
shrouded in mystery and  
largely misunderstood. For this  
special edition, Arcana focuses  
on the nexus of mysticism and  
spirituality in the magical act  
of making music. Far from an  
historical overview or cold  
musicologist's study, these  
essays illuminate a fascinating  
and elusive subject via the  
eloquent voices of today's most  
distinguished modern  
practitioners and greatest  
occult thinkers, providing  
insights into the esoteric

traditions and mysteries  
involved in the composition and  
performance of the most

[The Ancient Language of  
Sacred Sound](#) - David  
Elkington 2021-04-06

- Details how sacred sites  
resonate at the same  
frequencies as both the Earth  
and the alpha waves of the  
human brain
- Shows how  
human writing in its original  
hieroglyphic form was a direct  
response to the divine sound  
patterns of sacred sites
- Explains how ancient hero  
myths from around the world  
relate to divine acoustic  
science and formed the source  
of religion The Earth resonates  
at an extremely low frequency.  
Known as "the Schumann  
Resonance," this natural  
rhythm of the Earth precisely  
corresponds with the human  
brain's alpha wave frequencies-  
the frequency at which we  
enter into and come out of  
sleep as well as the frequency  
of deep meditation, inspiration,  
and problem solving. Sound  
experiments reveal that sacred

sites and structures like stupas, pyramids, and cathedrals also resonate at these special frequencies when activated by chanting and singing. Did our ancestors build their sacred sites according to the rhythms of the Earth? Exploring the acoustic connections between the Earth, the human brain, and sacred spaces, David Elkington shows how humanity maintained a direct line of communication with Mother Earth and the Divine through the construction of sacred sites, such as Stonehenge, Newgrange, Machu Picchu, Chartres Cathedral, and the pyramids of both Egypt and Mexico. He reveals how human writing in its original hieroglyphic form was a direct response to the divine sound patterns of sacred sites, showing how, for example, recognizable hieroglyphs appear in sand patterns when the sacred frequencies of the Great Pyramid are activated. Looking at ancient hero legends--those about the bringers of important knowledge or language--

Elkington explains how these myths form the source of ancient religion and have a unique mythological resonance, as do the sites associated with them. The author then reveals how religion, including Christianity, is an ancient language of acoustic science given expression by the world's sacred sites and shows that power places played a profound role in the development of human civilization.

John Dee's Five Books of Mystery - John Dee 2003-01-01  
Discovered in a hidden compartment of an old chest long after his death, the secret writings of John Dee, one of the leading scientists and occultists of Elizabethan England, record in minute detail his research into the occult. Dee concealed his treatises on the nature of humankind's contact with angelic realms and languages throughout his life, and they were nearly lost forever. In his brief biography of John Dee, Joseph Peterson calls him a "true Renaissance man" detailing his work in astronomy, mathematics, navigation, the arts, astrology, and the occult sciences. He was even thought to be the

model for Shakespeare's Prospero. All this was preparation for Dee's main achievement: five books, revealed and transcribed between March 1582 and May 1583, bringing to light mysteries and truths that scholars and adepts have been struggling to understand and use ever since. These books detail his system for communicating with the angels, and reveal that the angels were interested in and involved with the exploration and colonization of the New World, and in heralding in a new age or new world order. While Dee's influence was certainly felt in his lifetime, his popularity has grown tremendously since. His system was used and adapted by the Hermetic Order of the Golden Dawn, and subsequently by Aleister Crowley. This new edition of John Dee's Five Books of Mystery is by far the most accessible and complete published to date. Peterson has translated Latin terms and added copious footnotes, putting the instructions and

references into context for the modern reader.

*Leonard Cohen, the Modern Troubadour* - Jiří Měsíc

2020-12-23

This monograph arose from

thinking about the literary tradition as described by the Anglo-American modernist writers Ezra Pound and T. S. Eliot. In their view, the tradition of European love-lyrics crystallized in the work of the medieval Occitan troubadours, who represented the cultural and political milieu of the Occitanie of that period and whose work reflected the religious influences of Judaism, Christianity, and Islam. The main subject of their poetry was the worship of a divinized feminine character resembling the Virgin Mary, the Gnostic Sophia, or the ancient Mother Goddess. Their literary preoccupations further flourished in Tuscany, as well as among the German Minnesängers, and at the court of the Sicilian King Frederick II (1194-1250), from where they infiltrated into English literature during the Renaissance. In this period, Classical literature, in combination with troubadour poetry, became the cornerstone of English artistic production. However, it is not

so well known that troubadour poetry took as its model the medieval poetry written in Andalusian Arabic. This enigmatic essence is what makes this literature so relevant as it is the first instance of the synthesizing of religions, mythologies, philosophies, literatures, symbols, and motifs coming from cultures other than our own. Nowadays, it is not surprising that contemporary artists draw on the troubadour poets and that they are even contrasted with them by critics. Such is the case of Leonard Cohen, who, during his career, revealed erudition in medieval poetry and religion and whose work shows many parallels with the work of his Occitan and Andalusian predecessors. For this reason, the book presents a comparison of the texts and motifs present in their works and refers to another important facet of their œuvre: religion and mysticism. The purpose is to highlight the importance of troubadour poetry in the rise of popular culture in the second

half of the 20th century.

**Movies on Our Minds** - James E. Cutting 2021-08-10

This book traces the development of popular cinema from its inception to the present day to understand why humankind has expanded its viewing of popular movies over the last century. Drawing from his extensive work as a psychologist studying artistic canons, James E. Cutting presents hundreds of films across a wide range of genres and eras, considers the structure of frame content, shots, scenes, and larger narrational elements defined by color, brightness, motion, clutter, and range of other variables. He examines the effects of camera lenses, image

layout, transitions, and historical functions to classify different kinds of shots. He explains the arcs of scenes, the larger structure of sequences, and the scene- and sequence-like units that have become increasingly prevalent in recent years. The book then breaks movies into larger, roughly half-hour parts and espouses the psychological evidence behind each device's intended effect, ultimately exploring the rhythms of whole movies, the flow of physical changes, and the cinematic polyrhythms that have come to match aspects those in the human body. Along the way, the book considers cultural and technological evolutions that have contributed to shifts in viewers' engagement by sustaining attention, promoting understanding of the narrative, heightening emotional commitment, and fostering felt presence in the story. *Movies on Our Minds* asks critical questions about how our emotional processes and the way our experiences of movies have changed over the course

of cinematic history, for a cutting-edge look at what makes popular movies enjoyable.

*Sacred and Profane Beauty* - Gerardus Leeuw 2006

Gerardus van der Leeuw was one of the first to attempt a rapprochement between theology and the arts, and his influence continues to be felt in what is now a burgeoning field. *Sacred and Profane* is the fullest expression of his pursuit of a theological aesthetics, surveying religion's relationship to all the arts -- dance, drama, literature, painting, sculpture, architecture, and music. This edition makes this seminal work, first published in Dutch in 1932, newly available. A new foreword by Diane Apostolos-Cappadona analyzes the continuing relevance of van der Leeuw's thought. Van der Leeuw's impassioned and brilliant investigation of the relationship between the holy and the beautiful is founded upon the conviction that for too long the religious have failed to seriously contemplate the

beautiful, associating it as they do with the kingdom of sensuality and impermanence. Similarly it has been alien to literati and aesthetes to reflect upon the holy, for they choose to consider this physical world to be permanent, and therefore to be glorified through beauty alone. In truth, as van der Leeuw undertakes to show in *Sacred and Profane Beauty*, the holy has never been absent from the arts, and the arts have never been unresponsive to the holy. Whether one considers the Homeric epics, the dancing Sivas and Vedic poems, the sacred wall paintings of ancient Egypt, the primitive mask, or the range of sacred arts developed out of Latin and Byzantine Christianity, primordial creation in the arts was always directed toward the symbolization and interpretation of the holy. The fact that in our day this original connection is obscured and the artistic impulse is more generally regarded as wholly individualistic and autonomous does not contradict van der Leeuw's thesis; indeed, the

breakdown of the unity of the holy and the arts is central to his thesis. Van der Leeuw was the rare thinker who combined profundity of insight, grace of style, and a willingness to take daring intellectual chances. In *Sacred and Profane*, he describes each of the arts in its original unity with the religious and then analyzes its historical disjunction and alienation.

After a penetrating investigation of the structural elements within the arts which illumines a crucial dimension of the religious experience, van der Leeuw points toward the reemergence of an appropriate theological aesthetics on which a reunification of the arts could be founded.

**The Cambridge Companion to Blues and Gospel Music** -

Allan Moore 2003-03-13

From Robert Johnson to Aretha Franklin, Mahalia Jackson to John Lee Hooker, blues and gospel artists figure heavily in the mythology of twentieth-century culture. The styles in which they sang have proved hugely influential to generations of popular singers, from the wholesale adoptions of singers like Robert Cray or James Brown, to the subtler vocal appropriations of Mariah Carey. Their own music, and how it operates, is not, however, always seen as valid in its own right. This book provides an overview of both these genres, which worked

together to provide an expression of twentieth-century black US experience. Their histories are unfolded and questioned; representative songs and lyrical imagery are analysed; perspectives are offered from the standpoint of the voice, the guitar, the piano, and also that of the working musician. The book concludes with a discussion of the impact the genres have had on mainstream musical culture.

Martin Scorsese's Divine Comedy - Catherine O'Brien  
2018-05-17

Catherine O'Brien draws on the structure of Dante Alighieri's Divine Comedy to explore Martin Scorsese's feature films from Who's That Knocking at My Door (1967-69) to Silence (2016). This is the first full-length study to focus on the trajectory of faith and doubt during this period, taking very seriously the oft-quoted words of the director himself: 'My whole life has been movies and religion. That's it. Nothing else.' Films discussed include GoodFellas, The Last Temptation of Christ, Taxi Driver and Mean Streets, as well as the more recent The Wolf of Wall Street. In Dante's poem in 100 cantos, the Pilgrim is guided by the poet Virgil down through the circles of Hell in Inferno; he then climbs the steep Mountain of the Seven Deadly Sins in Purgatory; and he finally encounters God in Paradise.

Embracing this popular analogy, this study envisions Scorsese as a contemporary Dante, with his filmic oeuvre offering the dimensions of a cinematic Divine Comedy. Drawing on debates at the heart of religious studies, theology, literature and film, this book goes beyond existing explorations of religion in Scorsese's work to address issues of sin and salvation within the context of wider debates in eschatology and the afterlife.
