This collection provides a rare opportunity to ask how emerging media affect the ethical choices in our lives and the lives of people across the globe. Centering on different new media forms from eBay to Wikipedia, each chapter raises questions about how changing media formats affect current theoretical understanding of ethics. By interrogating traditional ethical theory, we can better understand the challenges to ethical decision making in an age of rapidly evolving media. Each chapter focuses on a specific case within the broader conceptual fabric of ethical theory. The case studies ground the discussion of ethics in practical applications while, at the same time, addressing moral dilemmas that have plagued us for generations. The specific applications will undoubtedly continue to unfold, but the ethical questions will endure.

Man Out - Andrew L. Yarrow 2018-09-11

The story of men who are hurting—and hurting America by their absence *Man Out* describes the millions of men on the sidelines of life in the United States. Many of them have been pushed out of the mainstream because of an economy and society where the odds are stacked against them; others have chosen to be on the outskirts

of twenty-first-century America. These men are disconnected from work, personal relationships, family and children, and civic and community life. They may be angry at government, employers, women, and "the system" in general—and millions of them have done time in prison and have cast aside many social norms. Sadly, too many of these men are unsure what it means to be a man in contemporary society. Wives or partners reject them; children are estranged from them; and family, friends, and neighbors are embarrassed by them. Many have disappeared into a netherworld of drugs, alcohol, poor health, loneliness, misogyny, economic insecurity, online gaming, pornography, other off-the-grid corners of the internet, and a fantasy world of starting their own business or even writing the Great American novel. Most of the men described in this book are poorly educated, with low incomes and often with very few prospects for rewarding employment. They are also disproportionately found among millennials, those over 50, and African American men. Increasingly, however, these lost men are discovered even in tony suburbs and throughout the nation. It is a myth that men on the outer corners of society are only lower-middle-class white men dislocated by technology and globalization. Unlike those who primarily blame an unjust economy, government policies, or a culture sanctioning "laziness," *Man Out* explores the complex interplay between economics and culture. It rejects the politically charged dichotomy of seeing such men as either victims or culprits. These men are hurting, and in turn they are hurting families and hurting America. It is essential to address their problems. *Man Out* draws on a wide range of data and existing research as well as interviews with several hundred men, women, and a wide variety of economists and other social scientists, social service providers and physicians, and with employers, through a national online survey and in-depth fieldwork in several communities.

The Pornification of America - Bernadette Barton 2021-03-30

An up-close look at how porn permeates our culture. Pictures of half-naked girls and women can seem to litter almost every screen, billboard, and advertisement in America. Pole-dancing studios keep women fit. Men airdrop their dick pics to female passengers on planes and trains. To top it off, the First Lady has modeled nude and the "leader of the free world" has bragged about grabbing women "by the pussy." This pornification of our society is what Bernadette Barton calls "raunch culture." Barton explores what raunch culture is, why it matters, and how

it is ruining America. She exposes how internet porn drives trends in programming, advertising, and social media, and makes its way onto our phones, into our fashion choices, and into our sex lives. From twerking and breast implants, to fake nails and push-up bras, she explores just how much we encounter raunch culture on a daily basis—porn is the new normal. Drawing on interviews, television shows, movies, and social media, Barton argues that raunch culture matters not because it is sexy, but because it is sexist. She shows how young women are encouraged to be sexy like porn stars, and to be grateful for getting cat-called or receiving unsolicited dick pics. As politicians vote to restrict women's access to birth control and abortion, *The Pornification of America* exposes the double standard we attach to women's sexuality.

Cheatingland - Anonymous 2022-03-22

Reminiscent of *Three Women and The State of Affairs*—and based on years of research and in-depth interviews with more than sixty men—this eye-opening and explosive study explores why men cheat, how they do it, and the repercussions that infidelity has on every aspect of life. It is estimated that one in four married men cheat on their wives. Of those, roughly half claim that they are "very happy" in their marriages. So why risk ruining it all? Is it the sex? The affirmation? The danger? Yes, it's all of that. But it's also so much more. The author of this book has conducted a series of in-depth interviews with men and women of all ages and backgrounds who have cheated in the past or are currently cheating on their spouses. They talked openly and intimately about details of their affairs, and the emotions that they experience before, during, and after. The book breaks down the five major categories of cheaters, defines the typical cheater personality, and looks at how husbands can cheat while also loving their wives. It reveals the tips and tricks spouses use to get away with secret affairs and examines everything from the influence of cheating parents on their children to the possible outcomes once an affair is discovered. This unfiltered window into the hearts and minds of men explores the psychological roots of cheating and proposes a new vision of masculinity that is more emotionally aware and could significantly

change relationships for the better.

To Raise a Boy - Emma Brown 2022-01-11

"How will I raise my son to be different? This question gripped Washington Post investigative reporter Emma Brown, who was at home nursing her six-week-old son when the #MeToo movement erupted. In search of an answer, Brown traveled around the country, through towns urban and rural, affluent and distressed. In the course of her reporting, she interviewed hundreds of people--educators, parents, coaches, researchers, men, and boys--to understand the challenges boys face and how to address them. What Brown uncovered was shocking: 23% of boys believe men should use violence to get respect; 22% of an incoming college freshman class said they had already committed sexual violence; 58% of young adults said they've never had a conversation with their parents about respect and care in sexual relationships. Men are 4 times more likely than women to die by suicide. Nearly 4 million men experience sexual violence each year. Emma Brown connects the dots between educators, researchers, policy makers and mental health professionals in this

tour de force that upends everything we thought we knew about boys"--adapted from back cover. *Guys' Guy's Guide to Love* - Robert Manni 2011-10-28

Sexting - Judith Davidson 2015-01-20

Sexting: Gender and Teens provides a close-up look into the intimate and gendered world of teens and those who live with and work with them. The author draws upon interviews with teens, parents and caregivers, and many others who work with teens from teachers and youth workers to principals and police, we learn how the new digital world is still permeated by beliefs and patterns of earlier patriarchal structures. This three state study reveals there are significant gendered differences among teens in their perspectives on sexting, and these differences have implications for how to respond to the issue of teen sexting. Adults, too, demonstrate gendered differences in their views on teen sexting, and these differences have an important impact on the shaping of youth views about gender and sexuality. As one mother said, "Girls set the pace, and boys notch the bedpost." Some key findings include:

- The human curriculum of sexuality is both conserving and adapting, and these two impulses are always interacting.
- We are in the midst of social and technological changes that have vast implications for all of our cultural notions, including sexuality.
- Regarding sexting: Adults

are pointing fingers in many directions and leaving adolescents to fend for themselves. This compelling account—presented through the words of participants—provides a vivid introduction to hands-on social research that will be of interest to those in gender and women's studies as well as the broader disciplines that touch upon these concerns, such as sociology, education, psychology, media studies, criminal justice, and other fields. Sure to spark strong opinions and discussion, the book offers opportunities for sustained engagement with topics of critical interest to today's digital world.
